For IMMEDIATE RELEASE

Sept. 20, 2011

CORRECTION: Bastrop fire investigation concluded

COLLEGE STATION, Texas — Texas Forest Service has completed the investigation of the Bastrop Fire. It has been determined that the cause of the fire was most likely electrical in nature.

A copy of the investigation report is available in compliance with the Public Information Act.

An open records request must be submitted in writing via email, mail or fax. Instructions for submitting a request may be found on the Texas Forest Service website at:

<http://txforests.tamu.edu/main/article.aspx?id=85>.

The Bastrop Fire and Union Chapel Fire together made up the Bastrop County Complex. The Bastrop Fire was the primary fire. The Union Chapel Fire remains under investigation.
