Joint Assistance Center

A Joint Assistance Center (JAC) is being set up to assist residents of Bastrop County affected by the Bastrop Complex Fires. A Joint Assistance Center (JAC) offers direct resources and services to disaster survivors and assists local jurisdictions in expediting the recovery process. The purpose of a JAC is to provide a central location for the rapid delivery of a wide variety of mass care resources. Bringing resources together under one roof bridges the gap from immediate mass care response to sustained mass care operations.
