

Bastrop County Press Release

FOR IMMEDIATE RELEASE

Sunday, September 11, 2011

Resident Registration Prior To Phase II Re-Entry Plan of Evacuated Areas

Prior to Bastrop County authorizing re-entry, residents will need to register and receive credentials that authorize entrance into their residential areas. Areas that are authorized for re-entry will be announced as determined by County Officials based on the safety of the citizens. Registration areas will be established at Terry's Corner and the Bastrop County Sherriff's Office. The re-entry passes will be issued based on photo identification that verifies residency by the property owner or renter. If individuals do not have identification, Bluebonnet Electric will provide staff with utility customer information for verification. Re-entry passes will be issued one per vehicle and must be affixed to the windshield for easy identification by law enforcement.

Individuals must have a photo id, if photo identification is not available, you must have some type of documentation such as a utility bill that proves residency.

The registration areas will be open Monday, September 12th from 10:00 am to 8:00 pm.
