Bastrop County Auditor's Office

Lisa Smith, County Auditor

To: Bastrop County Commissioners Court

From: Lisa Smith, County Auditor

Date: 07.22.2019

Re: Capital Improvement Plan

An outline of Bastrop County's Capital Improvement Plan (CIP) is attached for consideration and possible adoption by the Court. The CIP is a multiyear plan that will be used to identify, determine cost and implement the County's immediate, short-term and long term capital needs. The CIP includes possible projects to be implemented over an approximately 5 year timeframe for an overall cost of approximately **\$28,500,000**. The CIP includes three categories to separate the projects: Building Projects, Information Technology and County Roads & Bridges.

The CIP is a result of significant collaboration between the Bastrop County Commissioners Court, various officials and County Departments. The CIP will be reviewed on a biennial basis by Commissioners Court. Projects will be reevaluated, added, revised or possibly removed from the plan as situations warrant change.

Information Technology

Several information technology upgrades are needed in order to maintain productivity levels in an ever changing, fast paced world. The upgrades for the FY 18-23 include Software/Hardware Upgrades, Security System Upgrades, Storage Upgrades and Radio Tower Upgrades. The total cost of IT upgrades and improvements is **\$4,000,000.00**.

Building Projects

Several major building projects have been included in the plan based on projected space and service needs of our growing county departments. Projects include the construction of the Historic Jail Renovation Project, Judicial Court Complex, Law Enforcement Administrative Building, and the Jail Expansion Project. The total cost for all buildings, renovations, repairs and special projects is **\$17,500,000.00**.

County Roads & Bridges

It is imperative that Bastrop County invest in the upgrades of county roads due to increased population and vehicle traffic. Projects include major road and bridge construction and reconstruction, acquisition of right of way, culvert replacements and an initiative to upgrade gravel roads to asphalt. County road projects are included in the CIP at approximately **\$7,000,000**.

The County's intent is to issue Certificate of Obligations in FY 2020 to address capital improvement needs that are priority. Each project is detailed on a separate report that includes description and justification for the project, operation efficiencies and savings that could result from the project as well as historical information.

The Capital Improvement Plan for FY 2018 through FY 2023 represents the County's commitment to invest in our infrastructure while managing growth. A collaborated effort will ensure that capital funding will be allocated appropriately and implemented on projects that will provide the greatest benefit to the County.

Project Title: Software/Hardware Upgrades

Priority:

TOTAL PROGRAM COST	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023
\$ 1,700,000.00		\$ 1,700,000.00			

Description and Scope of Project

The project includes various ongoing issues within the County including upgrades to the current GIS software setup, MDC upgrades for LEC, County Wide UPS replacement, a trailer to be used in Disaster situations, and a refresh of Networking gear.

Purpose and Need Including Operational Efficiencies and Savings

The purpose of the project is to maintain multiple projects that are ongoing. GIS continues to grow as a resource for County Officials and residents. The computer and camera systems in the LEC cars are outdated. Current UPS systems throughout the County are in need of replacement because of age. Network components are outdated and are failing on a regular basis.

History and Current Status

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

\$ 150,000.00		\$ 150,000.00			

Description and Scope of Project

Security System upgrades for the Entire County. This will include cameras and access control upgrades for various buildings.

Purpose and Need Including Operational Efficiencies and Savings

Multitple security systems (camera and access control) are in need of upgrade. The addition of new cameras will assist with identifying issues where the County could recoop costs, etc.

History and Current Status

Most systems are 10+ old and camera images are unusable.

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

\$ 400,000.00		\$ 150,000.00			\$ 250,000.00

Description and Scope of Project

Bastrop County is in need of expanding its current Electronic Storage capacity. This project would allow for the addition of 2 units, one for use by the Entire County and one for Law Enforcement.

Purpose and Need Including Operational Efficiencies and Savings

The County will look at adding more storage devices to allow for data growth.

History and Current Status

County Data use continues to grow daily with additional software and data retention rates. With the addition of the Michael Morton act, storage concerns on Law Enforcement data are growing exponentially.

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

\$ 1,750,000.00					\$ 1,750,000.00

Description and Scope of Project

Radio system is in need of upgrade/repair. This project will allow for essential radio system upgrades. Project will include a new Tower and various Radio replacements.

Purpose and Need Including Operational Efficiencies and Savings

The addition of a West Tower will aid in Radio coverage across the Western portion of the County. Various Radios are in need of replacement. A console system is needed in the new Mike Fisher building for EOC purposes. The County is in need of a Radio Asset inventory software that will allow for proper reporting of radios in the fleet.

History and Current Status

Currently there is a void in Radio coverage in the Western part of Bastrop County. The County also has various old radios that need to be replaced due to inoperability.

Description and Basis of Estimate

TOTAL PROGRAM COST	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023
\$ 4,000,000.00		\$ 4,000,000.00			

Description and Scope of Project

The Bastrop County Historical Jail is in need of many repairs such as, leveling of the building, reworking the "sistered" joist ends and replacing the rotted sill plates.

Purpose and Need Including Operational Efficiencies and Savings

The Bastrop County Historical Jail constructed in 1891, is an example of a late 19th Century Second Empire Victorian. Renovating the jail will have many benefits to the citizens and visitors of Bastrop County. The 1st and 2nd floor of the jail will be renovated to preserve our County's history and can then be open to the public as a museum. Bastrop County will continue to use the 3rd floor of the jail for Grand Jury deliberations.

History and Current Status

The Bastrop County Historical Jail opened in 1892. In 1971, a new jail was built and the Historical Jail would no longer be used for those purposes. Later in 1974 the Historical Jail was converted to office space which continued until 2017/2018. The Bastrop County Historical Jail has been closed to the public after it was deemed unstable.

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023
TOTAL PROGRAM COST					
\$ 6,000,000.00				\$ 6,000,000.00	

Description and Scope of Project

This building is proposed to accommodate the existing needs of: the District Courts, District Attorney, and the District Clerk. The building will be sized to allow for additional needs of these departments that will occur with the projected increase in population. The building will be constructed on county property.

Purpose and Need Including Operational Efficiencies

Population and demographic studies for Bastrop County continue to show projections for continued growth in the County. As the population continues to increase, the demand for the county services will also increase. Currently most of these County services are provided by offices located in and around the County Courthouse complex. Parking spaces for people seeking county services in the Courthouse complex are inadequate. Construction of this new building, on a site located away from the courthouse, will free-up parking spaces for the Courthouse complex.

Construction of this building should allow for some increased efficiency in work function as well as the ability to share some common spaces such as: meeting, training, storage and other space. The District Court, District Attorney and the District Clerk are currently located in the Courthouse annex.

History and Current Status

As Bastrop County continues to grow the District Court, District Attorney and the District Clerk will out grow their current spaces. The existing Courthouse complex does not have the ability to accommodate the anticipated future demands for County services that will result from the projected ongoing growth in the County. Almost all County services are now centered around the Courthouse complex, and there is inadequate room for expansion.

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

Department: Sheriff's Office

Building:

Project Title: Law Enforcement Admin. Bldg.

Priority:

TOTAL PROGRAM COST	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023
\$ 5,500,000.00					\$ 5,500,000.00

Description and Scope of Project

The Bastrop County Law Enforcement Center(LEC) and Jail was originally constructed in 1990. Presently this facility accomodates a Sheriff's Office staff that exceeds 200 personnel and an average daily inmate population of 300. The addition to the jail in 2008 not only increased the capacity of the jail population , it increased the amount of staff in order to maintain the jail. This project will provide for an administration building which will alleviate this situation.

Purpose and Need Including Operational Efficiencies and Savings

The Bastrop County Law Enforcement Center and Jail continue to operate with much of the same infrastructure that was erected with the original construction. The construction of this building should allow for some increased efficiency in work function as well as the ability to share some common spaces such as; meeting, training, storage and other space. The Law Enforcement Administration staff are currently located within the originally constructed LEC building. The construction of this building will address this overcrowded work space.

History and Current Status

The Adminstration staff, inclusive of investigators, special services, clerical, etc., have outgrown their current spaces. The current LEC does not have the ability to accommodate the anticipated future demands for the County services that will result from the projected ongoing growth in the County.

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

TOTAL PROGRAM COST					\$ 5,500,000.00

Bastrop County

Capital Improvement Plan

FY 2018/2023

Department: Sheriff's Office

Building: Jail

Project Title: Jail Expansion

Priority:

TOTAL PROGRAM COST	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023
\$ 2,000,000.00					\$ 2,000,000.00

Description and Scope of Project

The Bastrop County Law Enforcement Center(LEC) and Jail were originally constructed in 1990. Presently these facilities accommodate a Sheriff's Office staff that exceeds 200 personnel and an average daily inmate population of 300. The addition to the jail in 2008 not only increased the capacity for the jail population, but addressed the deficiencies in the kitchen, medical and laundry facilities. This facility is operational 24 hours per day, 365 days per year.

Purpose and Need Including Operational Efficiencies and Savings

Population and demographic studies for Bastrop County continue to show projections for continued growth in the County. As the population continues to increase, the demand for County services will also increase. Construction of a jail expansion will allow for the increased need for inmate housing. Addressing the current and future needs of the facility simultaneously will allow for the County to house inmates for surrounding entities while partially offsetting the cost of construction.

History and Current Status

The Current Bastrop County Jail will continue to outgrow its current state as the population grows. The growth in population unfortunately includes the growth in Bastrop County's crime rate. Thus, the need for the jail expansion project.

Description and Basis of Estimate

Description	Year 1 2018/2019	Year 2 2019/2020	Year 3 2020/2021	Year 4 2021/2022	Year 5 2022/2023

TOTAL PROGRAM COST					
\$ 987,000.00		\$ 493,500.00		\$ 493,500.00	

Description and Scope of Project

Bastrop County Commissioners Court recognizes the transportation system as a critical element in the quality of life for its citizens. Providing a transportation system is a necessary government function. A safe and efficient transportation system is also necessary to support the economic vitality of Bastrop County. Transportation systems must efficiently and effectively allow citizens to travel to work and conduct their personal lives. Transportation systems must further provide for the efficient movement of goods to markets.

Purpose and Need Including Operational Efficiencies and Savings

The transportation system in the county serves a population that has increased from 57,733 in April 2000 (U.S. Census), to 74,171 as stated in U.S. Census 2010, a rise of approximately 28.5%. The Texas State Data Center and Office of the State Demographer shows the population for Bastrop County increased to 80,527 in the year 2015 and project it to increase to 99,329 by the year 2020. Reconstruction and /or replacement of deficient portions of the transportation system, as well as any needed construction of new system improvements within Precinct One, will help to provide for a more reliable mode of transportation and will help protect the value of the County's transportation system.

History and Current Status

Precinct One has a total of 129 miles of roadways and represents 14.10% of Bastrop Co Roads

Purpose and Need Including Operational Efficiencies and Savings

The transportation system in the county serves a population that has increased from 57,733 in April 2000 (U.S. Census), to 74,171 as stated in U.S. Census 2010, a rise of approximately 28.5%. The Texas State Data Center and Office of the State Demographer shows the population for Bastrop County increased to 80,527 in the year 2015 and project it to increase to 99,329 by the year 2020. Reconstruction and /or replacement of deficient portions of the transportation system, as well as any needed construction of new system improvements within Precinct Four, will help to provide for a more reliable mode of transportation and will help protect the value of the County's transportation system.

History and Current Status

Precinct Four has a total of 212 miles of roadways and represents 22.71% of Bastrop County Roads
