

**BASTROP COUNTY SANITATION SERVICES
OSSF PROFESSIONALS LIST**

(Bastrop County does not endorse or guarantee the license, certification, or performance of any individual on this list. Each one held a current

license at the time the list was compiled. We recommend that you obtain bids from several individuals, confirm their license status at tceq.com and ask for references. The best first step is to obtain a site evaluation of your property.)

SE - Site Evaluator License - Performs the initial site and soil evaluation. This is the professional you should contact first.

PE/RS- Professional Engineer or Registered Sanitarian - Required to design non-standard systems. Engineers do not need the SE license in order to perform Site Evaluations but an RS must have a current SE license.

OSI or OSII - On Site Installers - A level OSI installer may be hired for installing standard systems but it takes a level OSII to install all types of systems.

MP - Maintenance Provider - This is the person who must be contracted with for the required maintenance on aerobic systems.

Wright Robert O	RS-SE	512 925-7087	Goertz George	OSII-SE	512 940-9775
