- \_\_\_\_\_ I understand that the Bastrop County Office of Emergency Management (OEM) does not approve prescribed  
Initial burn plans. It is the obligation of the landowner to ensure that the prescribed burn plan is prepared by a qualified burn specialist, complies with State and local statutes, incorporates the Agriculture Management Guidelines set out in of Appendix D to the LPHCP, and is reviewed by the OEM prior to submittal to the LPHCP Administrator. Extreme care should be taken in handling sick or injured individuals to ensure effective and proper treatment. Care should also be taken in handling dead specimens to preserve biological materials in the best possible state for analysis of cause of death. In conjunction with the care of sick or injured endangered/threatened species, or preservation of biological materials from a dead specimen, the applicant and their contractor/subcontractor have the responsibility to ensure that evidence intrinsic to the specimen is not unnecessarily disturbed.
- \_\_\_\_\_ I understand that the issuance of a NOR is strictly conditioned on the landowner granting Bastrop County, its  
Initial employees and agents the right to enter the property for monitoring compliance with the Agriculture Management Guidelines and for biological monitoring.
- \_\_\_\_\_ I hereby grant Bastrop County, its employees, and its contractors the right to enter the property, after
