BASTROP COUNTY, TEXAS

Job Description

Job Title: LPHCP County Wildlife Biologist

Department: Habitat Conservation - LPHCP

FLSA Status: Non-Exempt

Reports To: LPHCP Administrator

SUMMARY:

Under the supervision of the Lost Pines Habitat Conservation Plan Administrator, this position is responsible for providing biological monitoring and training for county construction projects for the endangered Houston toad. Work will include conducting Houston toad surveys on projects ahead of construction activities, as well as, providing ongoing monitoring and biological oversight to insure compliance with all federal, state and local permits. Other responsibilities will include providing technical assistance to landowners in the Lost Pines Habitat Conservation Plan, promoting the use of LPHCP guidelines, and conducting community outreach programs as directed. Must have prior experience with endangered species and amphibian survey protocols. Experience with the Houston toad is preferred. Applicant should be in possession of, or be able to quickly obtain, a valid USFW Federal Fish and Wildlife Permit authorizing capture and transport of Houston toads.

SUPERVISION RECEIVED AND EXERCISED:

Receives supervision from the Lost Pines Habitat Conservation Plan Administrator.

Exercises supervision on construction sites as pertains to Avoidance and Minimization Measures for the Houston toad.

DUTIES AND RESPONSIBILITIES:

- Provide biological oversight including the evaluation of occurrence, detection, capture and safe transport and subsequent release of Houston toads as required; Monitor to insure that contractor's activities are in compliance with the Lost Pines Habitat Conservation Plan, as well as other federal, state, or local environmental permits;
- Conduct an extensive search of the work site for Houston toads in front of construction activities and notify the contractor when the area is clear to work; Provide Houston toad awareness training to construction personnel and Bastrop County employees;
- Monitor and verify that fuel handling and equipment maintenance operations are performed away from wetlands and water bodies and that the Construction Contractor maintains the necessary spill response material;
- Monitor and verify that all environmental restoration plans (i.e. seeding, erosion control, decomposition, etc.) are properly implemented in accordance with drawings and specifications and in accordance with all federal, state, and local permit conditions;
- Provide technical assistance to Lost Pines Habitat Conservation Plan participants for wildlife management by assisting with new enrollments and annual site visits;
- Conduct education and outreach programs for the Lost Pines Habitat Conservation Plan as directed.
- Assist with field data collection for Houston toad surveys and maintain equipment;

- Use topographic maps, aerial photographs, GPS units, and other maps to analyze sites for potential enrollments and survey locations;
- Maintain accurate data, files, reporting, and documentation as relates to job activities.

OTHER FUNCTIONS:

Performs other job related duties as directed by supervisor. NOTE: The essential functions describe the general nature and level of work being performed by employees holding this position.
